VitaFerm®
Concept•Aid®

WHAT'S
ONE
MORE
WORTH

VitaFerm® Concept•Aid® is a line of highly bioavailable vitamin and mineral supplements for beef cattle with the Amaferm® advantage to increase fertility and conception rates resulting in **MORE CALVES**. When used at least 30 days prior to calving through breeding, the formulas support quick repair of the reproductive tract, faster breed back and increased milk production for calf vigor and growth potential.

**"WITH MULTIMIN® 90
WE'VE SEEN A 5% TO
6% INCREASE IN THE
CONCEPTION RATE OF
OUR AI PROGRAM!"**

.....

We give our cows **MULTIMIN® 90** prior to calving to help improve the immune system of the unborn calves. At weaning we give our calves a shot of **MULTIMIN® 90**. We've seen less sickness, less foot rot and an easier transition to feed. And thirty days prior to conducting semen evaluations, we give our bulls **MULTIMIN® 90**, resulting in an increase in semen evaluation scores and a decrease in bulls that don't pass their semen test. With **MULTIMIN® 90** we've increased our conception rate, resulting in 30 to 40 more AI calves per year - which is a huge return by using the product!

.....

*Expecting the best out of
more than just our students!*

Your source for growthy and feed efficient genetics,
with built-in calving ease. All bulls are evaluated for individual
feed efficiency during a 70-day test in our Feed Intake Unit at ARDEC.
Annually offering 40 Angus and Hereford yearling bulls.

*Starting in spring 2017, we will be calving all our females
in April/May. As a result, we will be marketing our first calf crop
of age-advantaged bulls (20 months old) starting in January 2019.*

41st Annual Bull Sale – March 25, 2017

Want To Get Your Cattle **SOLD?**

The Angus Journal® is the leader in marketing and communications services. Let our team of experts create a marketing program that can get your Angus genetics and agricultural services SOLD!

Angus Journal®

With more than 13,000 subscribers, *Angus Journal®* is the official publication of the American Angus Association®. The audience is a solid core of loyal readers who don't just read the *Journal* every month — they study it. With more than a half century of commitment to the beef industry, the magazine is the most effective venue for advertising leading Angus genetics across North America.

Angus Beef Bulletin®

With a readership that exceeds 60,000 commercial producers using Angus genetics, the *Angus Beef Bulletin®* is one of the most popular beef industry publications. This savvy, informational tabloid is your best bet to reach thousands of commercial buyers of Angus genetics. Published five times a year, it's in the mail in time for bull-buying seasons.

Web Services

Offers a wide array of Internet services to help you promote your farm or ranch, breeding program, cattle sale or show. Specialties include: web site design, searchable and "posted as printed" online sale books, e-List ads, banner ads and online coverage of major beef industry events. Angus breeders, associations, feedlots and other related ag industries are tapping Web Services to expand their marketing efforts worldwide.

Special Services

The industry's leading print production team. Whether you need a sale book, brochure, postcard, show book or newsletter, our team of professionals is ready to help. We also provide a mailing list service through which you can reach your targeted audience.

Creative Media

Is devoted to helping you more effectively market your seedstock through video, photography and marketing communications. We are ready to help you develop tools to connect with your customers and stay top-of-mind in the marketplace.

Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs). EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 8-20 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation at www.angus.org.

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo or those of partnering labs Zoetis (HD50K, i50K) or GeneSeek (GGP-HD, GGP-LD).

**175 Simmental and SimAngus™
High Altitude Bulls**

- PAP tested by Dr. Tim Holt at 7,680 feet
- Tested Negative for Trich and BVD-PI
- Ultrasound Carcass Results available Sale Day
- Guaranteed for Fertility, Structure and Disposition
- Videos and photos available online prior to the sale

The FACTS about PAP at T-Heart

- We develop and PAP test our bulls at 7,680 feet.
- We PAP test our bulls twice, once at weaning and once at yearling, to ensure the best accuracy. If they pass twice in our elevation and environment, we feel more confident they will work for you.
- We are dedicated to being your trusted supplier for high altitude bulls.

ORigen YOUR COMPLETE GENETIC SOURCE

MARKETING PROGRAM • CUSTOM COLLECTION • ORIGIN EMBRYO TECHNOLOGIES • SEMEN SALES

Dispelling the Myths...

Bull owners make bull decisions.

ORigen does not tell bull owners what to do with their bulls - owners decide what is best for the bull and themselves. ORigen provides the facilities, care and marketing opportunities bull owners need.

ORigen does not own your bull.

All bulls are owned solely by the registered owners of the bull.

Bull owners set semen and certificate prices.

ORigen does not dictate pricing. All pricing is set by bull owners.

ORigen is a state-of-the-art collection facility.

Located in South Central Montana. Whether bulls are collected at ORigen, or another approved facility, bulls can be marketed through ORigen.

ORigen provides alternative marketing solutions.

The ORigen marketing program is one of the largest distribution networks in the United States. Bull owners maximize their exposure and semen marketing options at ORigen.

The ORigen Difference.

Colorado Angus Association

Constitution and By-Laws

Article I-Name

Section 1: This association shall be known as the Colorado Angus Association.

Article II-Objects

Section 1: The object of this association shall be to encourage and extend the influence of Angus cattle in the State of Colorado; to promote the interests of its membership. First, by creating better trade opportunities; second, by general concerted activities to arouse greater interest in breeders already established and in those that are starting herds, as well as by concerted efforts through personal and public advertising to educate those having grade herds in the use of better breeding stock; third, to cooperate to the general advantage and profit of those members of the group and most important to promote close relations between the membership, thus stimulate activity among them.

Section 2: To arrange for public sales when conditions are favorable, to which members may consign their salable stock, and to provide for a careful inspection of said sale entries by a committee appointed by the President so that a creditable offering may be assured. The Committee shall consist of two or more members and if possible a representative of the American Angus Association. On State sponsored sales, the Association may retain a percentage of the gross sale and the Board may hire a Sales Manager.

Section 3: To arrange for and sponsor field days, as well as demonstrations, breeding and management meetings, and any other activities which may be deemed worthy in providing general education on subjects pertaining to the betterment of the Angus cattle business. To assist in stimulating Junior Angus activities, especially Angus events at shows, fairs or any other time there is sound opportunity.

Article III-Membership

Section 1: Any commercial or purebred producer of Angus cattle may become a member of the Colorado Angus Association by paying dues, which are set by the Board of Directors. Directors shall announce the established rate of dues at least three (3) months in advance of the fiscal year in which it is to apply. Each member will be granted one (1) vote in the matters and affairs of this association.

Section 2: Annual dues are paid for the calendar year, January to January.

Section 3: There shall be three types of membership: Regular, Lifetime and Associate.

a. The Regular membership shall be awarded to any individual, including only the spouse, qualified under Section 1, Article III upon payment of the annual dues as described in Section 2, Article III.

b. The Lifetime membership shall be awarded to any individual, including only the spouse, qualified under Section 1, Article III upon payment of the fee for such membership as determined by the Board of Directors and shall be for the lifetime of the member and spouse.

c. The Associate membership shall be awarded only to a Ranch business, the name of a single designated agent must be made known and only the named agent will retain voting rights for the ranch membership, upon payment of the fee as described in Section 2, Article III.

Article IV-Meetings

Section 1: The annual meeting of the members of this Association shall be held once each calendar year at a place designated by the Board. Notice to the members by mail prior to the meeting shall constitute sufficient prior notice.

Section 2: The order of Business at such Annual Meetings shall be:

Call to Order President's address

Reading and Approval of minutes of last annual meeting and Reading and Approval of Treasurer's report

Reports of committees as necessary

Election of Officers and Directors

Colorado Angus Association

Constitution and By-Laws

Unfinished Business
New Business
Adjournment

Section 3: The President may call a meeting of the full board at any time deemed advisable. Likewise, a majority of the board may call a meeting of the full board. Special meeting of the membership for conducting business may only be called by consent of the Board.

Article V-Directors/Officers

Section 1: Nine (9) directors will administer the affairs of the Association. The terms are to be staggered, so that three (3) Directors are elected annually for a term of three years. They will be elected by the general membership at the Annual Meeting.

Section 2: A President, Vice-President, Secretary, and Treasurer, to be elected from the nine Directors at the earliest possible meeting of the new Board, shall govern the board.

Section 3: The President shall be the chief executive officer. He/she shall preside over the meetings of the members and the Board of Directors, see that the orders and resolutions are carried into effect, and have the general power and duties of supervision and management vested in this office. A President may be elected to serve up to two consecutive terms, then shall relinquish the office for at least one year before serving again as President, at which time he/she shall again be eligible to be elected to serve for up to two consecutive terms.

Section 4: The Vice-President shall perform the duties and exercise the powers of the President during the absence or inability of the President.

Section 5: The Secretary shall attend all meetings of the members and the Board of Directors. He/she shall maintain a file of all minutes of the Association's meetings, keep a roll of all members with their addresses, give all notices required by statute, by law or resolution, and perform such other duties delegated by the Board of Directors.

Section 6: The Treasurer shall have custody of all funds and securities. He/she shall keep an accurate account of all receipts and disbursements; deposit all moneys, securities and other valuable effects in the name of the Association in such depositories as may be designated by the Board of Directors. He/she shall disburse the funds of the Association as may be directed by the Board, receiving proper vouchers for such disbursements and shall render to the Board at the regular meetings an account of all transactions and of the financial condition of the Association.

Section 7: If any board member or officer, who is physically able, fails to attend two-thirds of the regularly scheduled meetings in any year, or otherwise fails to perform the duties for which he/she is elected, the board may, after notification to that person, remove them from office and declare a vacancy. If a vacancy develops it may be filled by interim appointment by the board until the next annual meeting and election.

Section 8: The Board of Directors shall have the power to appoint other directors, officers and agents as may be deemed necessary for the transaction of business of the Association.

Article VI-Amendments

Section 1: New By Laws, changes, or amendments shall only be made after such proposals have been presented at the annual meeting of the Association and ratified by a majority vote of the members present. Notice of proposed change(s) or addition(s) shall be contained in the notice of the annual meeting.

Our Mission

To enhance the productivity and profitability of dairy and beef producers, Select Sires is committed to be the premier provider of highly fertile, superior genetics accompanied by effective reproductive- and herd-management products and services.

Together let's rock the world of cattle DNA testing

Our new GGP and Igenity® DNA portfolios deliver amazing power to select, manage and market seedstock and commercial cattle.

Seedstock producers:

- Use GGP to select herd bulls and replacement heifers with more confidence and increase your rate of genetic progress
- Use GGP to profile your sale bulls to provide your bull customers with the most reliable GE-EPDs.

Commercial producers:

- Buy GGP tested bulls from your seedstock supplier.
- Use the Igenity profile to retain and develop the heifers with the highest profit potential.
- Manage the future of your cow herd with more confident selection.

Igenity®

Colorado Angus Association

Awards

For many years, the CAA has honored outstanding members of the Association by designating them as Pioneer or Promoter of the Year. The CAA Board has recently updated the definitions for selection of award winners, and added 3 new award categories:

- ★ **PIONEER** - A CAA member/breeder who has a long-standing program in the Angus Breed, and has made a positive impact in the Angus breed and/or Angus producers in Colorado for many years.

- ★ **PROMOTER OF THE YEAR** - A CAA member/breeder who is consistently in front of the public with Colorado Angus knowledge, and markets Angus cattle with professionalism and quality. The candidate attends Angus events on a regular basis (meetings, shows, sales, tours, etc.) and helps new and current members with their programs.

- ★ **PRODUCER OF THE YEAR (New)** - A Colorado commercial producer or registered producer (need not be a current CAA member) who is known for quality of cattle represented by demand for their stock (commercial or registered).

- ★ **LEADERSHIP AWARD (New)** - A CAA member who is well respected and exhibits leadership roles within the CAA and Angus community, and has made a significant contribution of their time, knowledge and efforts to improve and advance the Angus breed.

- ★ **CJAA MEMBER OF THE YEAR (New)** - A member of CJAA who has made a significant contribution of their time and efforts to improve and advance the CJAA, and has demonstrated leadership and dedication to the Angus breed.

Each year, the Board will solicit nominations and feedback from the general membership, and then select winners by vote. There may not be a winner in every category every year. Awards will be presented at the National Western Foundation Female Sale, or at the award winner's production sale or another event as appropriate.

BLACKink BASICS

Angus Genetics Grow Profit Potential

Crossbred calves can deliver part of the package, but the bottom line is that Angus cattle gain and grade. New evidence says high-percent Angus cattle make money at every link in the production chain, returning \$68 per head more than low-percent Angus cattle.

Comparison of the net increase in dollars per-head returned due to Angus genetics.

Percentage Angus: 0-25 is represented by PAR ■ 26-75 ■ 76-100

*based on the pounds of additional carcass weight gained in the feedlot

**based on the reduction in medicine, labor and chute/equipment charges

Data represents 9,893 calves from 12 states fed at eight Iowa feedlots during 2002-04.
